

Ottawa – 23 December 2005. OrbitIQ Inc., the prominent business accelerator for the Information and Communications Technology (ICT) industry announces today that it has signed Alpha Telecom Inc, USA as the newest member of it's portfolio of client companies. OrbitIQ will sell Alpha Telecom's Next Generation Networks (NGN) Customer Premise Equipment (CPE) and solutions through OrbitIQ's North American sales channel.

Alpha Telecom's portfolio of ADSL2+ and VoIP solutions offers carrier class managed Triple Play (Voice, Data and Video) solutions enabling carriers to launch NGN services to their enterprise customers, residential, and SOHO seamlessly and quickly. Alpha's web based management tools (the eXtended Management System) are used by broadband service providers for Triple Play application management providing "truck-roll-free" service activation and powerful network monitoring, troubleshooting and software management.

About Alpha Telecom Inc, USA
